- Coursework in Data Structures and Algorithms, Software Engineering III, C#/Java/Swift OOP

Salt Lake Community College / A.S. in General Studies

September 2011 - April 2013, Taylorsville, Utah

Experience

Intellegis LLC, Operations Manager

December 2018 - Current, Murray/Layton, Utah

- Managed and trained a team of over 20 Certified Nursing Assistants which included recertifications, training courses, performing employee reviews, and increasing employee retainment rate by at least 30%.
- Increased revenue by 40% by building a network of contacts for referrals for Brain Injury that yields new clients annually every year
- Conducted and oversaw the internal and annual audit with Department of Human Services which maintained a 100% pass rate each year.

Intellegis LLC, Supervisor

October 2016 - December 2018, Murray, Utah

- Implemented the employee schedule which required extensive problem-solving and coordination to ensure that all shifts were staffed with 100% coverage in a 24-hour requirement.
- Taught employees by using a positive "lead by example" philosophy that yielded increased cooperation built ongoing positive interaction.
- Created the "Client Concern Form" and feedback surveys that gave the clients opportunities for their voice to be heard thus increasing client attendance rate for activities by 70% and reported happiness levels by 22%.

Intellegis LLC, Certified Nursing Assistant

March 2013 - October 2016, Murray, Utah

- Maintained 100% attendance and high marks on employee reviews thus proving acceptance of constructive criticism and adaptation.
- Performed guided physical therapy on elderly clients to increase muscle retention and healthy living to prevent muscular atrophy.

Achievements

- Worked with a team to deliver a modern application to the Weber County Animal Shelter that used MySQL for storing database records and featured strong database development principles that ensure a safe and efficient database structure for long-term utilization.

Skills

C#, C++, Java, Swift, HTML/CSS, JavaScript, REST, Spring, Heroku, Git
